**ESKE Sourcing Kenya** wishes to conduct an urgent **PREQUALIFICATION** of all suppliers in the **HEALTHCARE** sectors in Kenya, our aim is to gain knowledge of specific groups of suppliers in different categories, in order to mitigate against costs and risks for our partners in medicinal industries.

#### 1.2

To foster competition in acquisition, contracting and disposal of goods, works and services, we aim to effect an online supplier registration.

Prequalification is part of our risk management strategies to reduce suppliers' related risks such failure to deliver supplies on time and to ensure compliance with all safety needs, litigation costs due to failure to supply as per the contract terms, suppliers' insolvency, technical competence as well as resource capabilities.

#### 1.4

At the end of this process, we will be able to determine supplier performance capabilities by establishing its contribution in terms of **source, costs, cycle time and quality**.

#### 1.5

#### 1.6

Hence after this evaluation, we will then invite the prequalified suppliers to participate in competitive tendering **ON NEED BASIS**, at different schedules as instructed by our partners i.e. request for quotations (**RFQ**), request for proposals (**RFP**) and tenders, to enforce the culture of **equity, transparency, accountability and competition**.
